Tony Robinson

Judy Bokhorst and Daphne Earp Jones

Fil's Floral Fantasy was inspired by friendships and family giving them all tribute by the personalities captured in these flowers. Sunny Sunflowers. Tall Strelitzias also known as Birds of Paradise. Roses and Lilies have a quiet beauty. The Protea is bold and courageous. The Bottlebrush, represents the random people that come into our lives. (My neighbour's tree hangs beautifully over our garden!) Yet, they are all supported with strength and character captured by the tree trunk vase. Calmness captured by fallen petals in the cool shadow. This idea has been sketched in my mind and heart for a few years and finally created earlier this year with absolute joy and delight! Colour, light and texture are my constant fascination in life and on canvas.

Warm wishes to you all over Christmas and New Year 2016 with God's Blessings in every way delight and inspire you

Fil's Floral Fantasy

....the journey....
